Innate Immunity and Inflammation

**332**

**Plasma exosomal miR-375-3p regulates ferroptosis in keratinocytes by targeting GPRX4**

**ABSTRACTS | Innate Immunity and Inflammation**

**333**

**Effect of thermal spring water on human dendritic cell inflammatory responses**

**ABSTRACTS | Innate Immunity and Inflammation**

**334**

**Involvement of cathepsin S and protease-activated receptor-2 in ciguatoxin-induced substance P release: new promising targets to treat ciguatera pruritus**

**ABSTRACTS | Innate Immunity and Inflammation**

**335**

**Anti-inflammatory effects of potassium iodide in sodium dodecyl sulphate-induced inflammatory murine skin through interleukin-10 regulation**

S. Hayashi, S. Ishikawa, M. Kosie, T. Kaminaga, Y. Hamasaki, and I. Ken

**ABSTRACTS | Innate Immunity and Inflammation**

**336**

**Mutational skin bacteria protect against dermatitis via the induction of steroid biosynthesis pathways**

**ABSTRACTS | Innate Immunity and Inflammation**

**337**

**Human β-defensins are involved with pathological mechanism of cutaneous adverse effects caused by EGFR inhibitors**

R. Om%n, F. Miyagawa, H. Azakizawa, and H. Asada
